Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)	Claims 6-24	YES
	Claims 1-5	NO
Inventive step (IS)	Claims 6-24	YES
	Claims 1-5	NO
Industrial applicability (IA)	Claims 1-24	YES
	Claims	NO

2. Citations and explanations (Rule 70.7)

DE 3018048, DE 4007137.

Novelty & Inventive step - Claims 1 – 5

The first citation clearly discloses a foam generation system for a sanitary appliance that has all the features of claims 1-5. The second discloses similar, but not necessarily for a sanitary appliance, rather for a fire extinguisher. However, the process & apparatus is basically the same as claimed in these claims.

Hence, claims 1-5 are not novel and lack an inventive step.

Neither of the citations however disclose the arrangement of claim 6, namely the means of dosing or extracting the foam generating mixture from its container. This is a unique feature of claim 6 and onwards.

Hence, claims 6-24 are novel and have an inventive step.
